Pedagogy: Classroom lectures, Tutorial	s, and Problem Solving.	I	
	pletion of the course, the studen standing of the elements of cost ar ed documents, understand the mar	nd prepare a cost sheet	
procedures.	de documents, understand the mar	agement of stores and	13500
• Develop the ability to calculate E	Employee costs.		
	on overheads and calculate overhe	ad absorption rates.	
• Understand and reconcile cost an	d financial accounts.		
Syllabus:			Hours
Module No. 1:Introduction to Cost Ac	counting		12
Introduction: Meaning, Objectives, Imp	portance and Uses of Cost Accourt	ting, Functions	
of Cost Accounting Department in a	n Organization, Difference bet	ween Cost Accounti	ng and Financ
Accounting; Various elements of Cos	st and Classification of Cost;	Cost Object, Cost U	nit, Cost Dri

Accounting; Various elements of Cost and Classification of Cost; Cost Object, Cost Unit, Cost Driver, Responsibility Centers; Cost Reduction and Cost Control; Methods and Techniques of Costing(Meanings only); Use of IT in Cost Accounting; Limitations of Cost Accounting; **Cost Sheet**: Meaning and Cost Heads in a Cost Sheet, Presentation of Cost information in Cost Sheet/Statement-Problems on Cost Sheet, Tenders and Quotations.

Module No. 2:Materials Cost	12

Materials: Meaning, Importance and Types of Materials- Direct and Indirect Material.

**Materials Procurement**: Procedure for procurement of materials and documentation involved in the procurement of materials-(Bill of materials, Material requisition note, Purchase requisition note, Purchase order, Goods received note);

Materials Storage and Records: Duties of Store keeper, Store records-(Bin cards, Stores Ledger, Stock Control Cards);

**Materials Issues and Valuation**: Procedure for material issues, Documents used in material issues-(Material Requisition Note, Material Transfer Note, Materials Return

Note); Valuation of material issues-preparation of Stores Ledger/Account-FIFO, LIFO, Simple Average Price and Weighted Average Price Methods-problems.

**Inventory Control**: Inventory control techniques and determination of various stock levels-Problems on Level Setting and Computation of EOQ; ABC Analysis, FSN Inventory, VED Inventory, HML Inventory, Physical Control-Two-Bin system, KANBAN, JIT Inventory Management technique, Perpetual Inventory system (Concepts only).

10

12

10

Module No. 3: Employee Cost

**Employee Cost:** Meaning, Components, Classification and Importance of Employee (Labour) Cost in Organizations; Attendance Procedure-Time keeping and Time Booking, Idle Time-Causes and treatment of Normal and Abnormal Idle Time, Overtime- Causes and treatment (Theory only);

**Methods of Remuneration** (Payment of Wages and Incentives) Problems on calculation of earnings under Time Rate (Straight time rate, Halsey and Rowan Methods) and Piece rate systems(Straight piece rate and Taylor's differential piece rate); **Employee Turnover**- Meaning, Reasons and Effects of LTO/ETO.

Module No. 4: Overheads

**Overheads**: Meaning and Classification of Overheads; Accounting and Control of Manufacturing Overheads: Estimation and Collection, Cost allocation, Apportionment, Re-apportionment and Absorption of Manufacturing Overheads; Problems on Primary and Secondary distribution and Secondary distribution using Reciprocal Service Methods only (Repeated Distribution Method and Simultaneous Equation Method); Accounting and Control of Administrative, Selling and Distribution overheads; Absorption of overheads: Meaning and Methods of Absorption of overheads; Problems on Machine hour rate

Module No. 5:Reconciliation of Cost and Financial Accounts

Reasons for differences in Profits under Financial and Cost Accounts; Procedure for Reconciliation –Ascertainment of Profits as per Financial Accounts and Cost Accounts and Reconciliation of Profits of both sets of Accounts–Preparation of Reconciliation Statement

-Problems.

# **Skill Developments Activities:**

- Prepare a Cost Sheet with imaginary figures.
- List the documents required in Inventory Management.
- Demonstrate the valuation of inventory using any one method of pricing material issues.
- Calculate the amount of Wages under Halsey/Rowan Plans, using imaginary data.

#### **Text Books:**

- 1. Jainand Narang, Cost Accounting, Kalyani PublicationHouse.
- 2. M. N Arora, Cost Accounting, HPH

Organizational Development:MeaningandNatureofOrganizationalDevelopment(OD), ProcessofOrganizationalDevelopment:OverviewofEnteringandContracting,Diagnosing:MeaningofDiagnosing, ComprehensiveModelforDiagnosingOrganizationalSystems(OrganizationalLevel, GroupLevelandIndividualLevel).

# Module No. 5:OD Interventions

10

Designing Effective OD Interventions: How to Design Effective Interventions, Overview of OD interventions-Human Process Interventions, Techno-Structural Interventions, HRM Interventions and Strategic Change Interventions, Conditions for optimal success of OD.

#### **Skill Developments Activities:**

- Two cases on the above syllabus should be analyzed and record in the skill development
- Draw Blake and Mouton managerial grid
- List the Personality Traits of Successful Business Leaders.

# SAMPLECASES FORREFERENCE:

# Module 1

For business continuity, during Covid-19, XYZ organization has encouraged the employees' to Work From Home (WFH). But Post lock down, when the employees are called back to office, they resisted. Majority of the employees prefer WFH. Few employees have resigned the job too.

If you are the manager of XYZ, can you justify the employee behavior? Draw up a list of all the strategies you incorporate in bringing employees back to office

# Module 2

You are heading a global team, which consist of employees from various culture and background. The diversity and lack of inclusion is negatively impacting the functioning of this heterogeneous team. Dysfunctional conflict is common among the members.

Chart a plan of action to resolve the conflict within the global team. Suggest remedies for a long-term solution

# Module 3

The ABC Bank is planning to introduce Finale digital banking platform for competitive advantage. Majority of the employees' have more than 15 years work experience in the bank. They do not want to change from their comfort zone.

As a manager, design the methods of overcoming employee resistance to change in order to achieve the objectives of ABC Bank in the best possible manner.

# Module 4

Owing to the rapid expansion, the XYZ start-up's transition from a "one-man show 'to a 'professionally run" setup was initiated. The aim was to develop the strengths of each member of the team and to channel them towards autonomous decision making. Chart The steps in the OD process that can be followed by XYZ firm. Identify the four target of change-Human Resources, Functional Resources, Technological Capabilities and Organizational Capabilities.

# Module 5

Employee retention is a critical issue in your E-Commerce organization. The talented employees are moving to competitive firms. Chart an organizational development intervention plan to maximize effectiveness and minimize organizational strain.

# Name of the Program: BBA

## Course Code:126BBA03XXXDSC09T

## Name of the Course: STATISTICS FOR BUSINESS DECISIONS

<b>Course Credits</b>	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 Hrs.	56 Hrs.

Pedagogy: Classroom lectures, Tutorials, and Problem Solving.

#### Course Outcomes: On successful completion of the course, the students will be able

- To understand the basic concepts in statistics.
- To classify and construct statistical tables.

Two Dimensional Diagrams-Pie Diagram.

- To understand and construct various measures of central tendency, dispersion and skewness.
- To apply correlation and regression for data analysis.

Syllabus:	Hours
Module No. 1:Introduction to Statistics	12

Introduction–Meaning, Functions and Uses of Statistics ; Collection of Data-Techniques Of Data Collection – Census Technique and Sampling Technique (Concepts). Classification: Meaning, and Methods of Classification of Data, Tabulation: Meaning, Parts Of a Table–Simple problem on Tabulation; Diagrammatic Presentation: Bar Diagrams – Simple Bars, Multiple Bars, Percentage Sub-divided Bar Diagram;

Module No. 2: Measures of Central Tendency and Dispersion	14

**Measures of Central Tendency**: Calculation of Arithmetic Mean, Median and Mode for Individual, Discrete and Continuous Series – Problems; Empirical relation between Mean, Median and Mode.

**Measures of Dispersion:** Absolute and Relative measures of dispersion-Standard Deviation in Individual, Discrete and Continuous Series –Problems

Measures of Skewness: Calculation of Karl Pearson's Co-efficient of Skewness (Uni-modal)–Problems.

Module No.3:Correlation and Regression Analysis	10
Correlation Analysis - Meaning, Types of Correlation, Calculation of Karl Pearson's Coeff Computation of Probable Error, Regression Analysis–Concept of Regression, Regression equations-Problems.	ient of Correlation,
odule No. 4: Time Series Analysis	12

Meaning, Components, fitting a straight-line trend using Least Square Method (Problems where  $\Sigma X=0$ only),calculation and estimation of trend values.

## Module No. 5: Index Numbers

12

Index number, Construction of Index number, Methods of Index number- simple aggregate method, Weighted method-Fishers Ideal Index Number-Problems. Tests of Adequacy (Unit test, TRT, FRT, and Circular test).Consumer Price Index Number-Problems.

# **Skill Developments Activities:**

- a) Data Visualization practical session Using Table u / Power BI.
- b) Execute Average, Variance, Standard Deviation, CV and Covariance using Excel.
- c) Execute and Analyse Regression Model using Excel,
- d) Practical session on Time series models using GRETL
- e) Collect past years' Indian consumer price index data (as of the current base year) and analyse its impacton any macro economic indicator.

# Skill Enhancement Course: SEC for B.Sc. & other Subject Students

Semester: milli Course Course Course Transformers				
Course Title: Artificial Intelligence	Course Credits: 2			
Total Contact Hours: 13 hours of theory and 26 hours of practical	Duration of ESA: 01 Hour			
Formative Assessment Marks: 20 marks	Summative Assessment Marks: 30 marks			

#### Semester: III/IV Course Code : 126COM03XXXSEC03T

#### **Course Outcomes (COs):**

At the end of the course, students will be able to:

- Appraise the theory of Artificial intelligence and list the significance of AI.
- Discuss the various components that are involved in solving an AI problem.
- Illustrate the working of AI Algorithms in the given contrast.
- Analyze the various knowledge representation schemes, Reasoning and Learning techniques of AI.
- Apply the AI concepts to build an expert system to solve the real-world problems.

#### **Course Content (Artificial Intelligence)**

1	Details of topic	Duration
Course – 1 -	AI-900 pathway consists of 5 courses and 2 reading material:	05 hours
Azure AI	i. Introduction to AI on Azure	
Fundamentals	ii. Use visual tools to create machine learning models with	
(AI-900)	Azure Machine Learning	
	iii. Explore computer vision in Microsoft Azure	
	iv. Explore natural language processing	
	v. Explore conversational AI	
	vi. Tune Model Hyperparameters - Azure Machine Learning	
	(Reading)	
	vii. Neural Network Regression: Module Reference - Azure	
	Machine Learning (Reading	
Practical	1. Prepare the data	13 hours
	2. Model the data	
	3. Visualize the data	
	4. Analyse the data	
	5. Deploy and maintain deliverables	

Course – 2 - Data Analyst Associate (DA-100)	<ul> <li>DA-100 pathway consists of 5 courses and 2 reading material: <ol> <li>Get started with Microsoft data analytics</li> <li>Prepare data for analysis</li> <li>Model data in Power BI</li> <li>Visualize data in Power BI</li> <li>Data analysis in Power BI</li> <li>Manage workspaces and datasets in Power BI</li> <li>Key Influencers Visualizations Tutorial - Power BI</li> <li>Smart Narratives Tutorial - Power BI   Microsoft Docs</li> </ol> </li> </ul>	08 hours
Practical	<ol> <li>Smart Narratives Tutorial - Power BI   Microsoft Docs</li> <li>Describe Artificial Intelligence workloads and considerations</li> <li>Describe fundamental principles of machine learning on Azure</li> <li>Describe features of computer vision workloads on Azure</li> <li>Describe features of Natural Language Processing (NLP) workloads on Azure</li> </ol>	13 hours

#### **References to learning resources:**

1. The learning resources made available for the course titled "Azure AI Fundamentals (AI-900) and Data Analyst Associate (DA-100)." on Future Skills Prime Platform of NASSCOM.

#### Pedagogy

Flipped classroom pedagogy is recommended for the delivery of this course. For every class:

- 1. All the faculty who takes this class should go for a Faculty Development Program on these before starting the session.
- 2. Faculty needs to introduce this course to the students then students need to start learning from Future Skills PRIME platform.
- 3. Faculty also needs to explain the course outcomes and needs of the course and why it is needed for the students.
- 4. Then students need to start learning online after registering on the platform.
- 5. Classroom activities are designed around the topic of the session towards developing better understanding, clearing doubts and discussions of high order thinking skills like application, analysis, evaluation, and design.
- 6. Every theory class ends with announcement of exercise for practical activity of the week.

#### **Exercises:**

Practical Exercises	Weightage in marks
After each chapter students' needs to complete exercises based on the learning in Azure environment.	No Weightage (But students need to complete it to move to next chapter).

#### Assessment:

Formative Assessment			
Assessment Occasion	Weightage in Marks		
<ol> <li>Summative Assessment: After completion of both the courses, the student can optionally give Assessment for each of the courses on Future Skills Prime platform. Students will have two attempts and those who score at least 50% marks per course will get certificate from NASSCOM- MeitY.</li> </ol>	This assessment may be given 50% weight in computing the final grade of the students.
